The Book of Kells: Marvel and Mystery

Retired Siena College professor of English **Dr. Pamela Clements** will introduce you to *The Book of Kells*, the most famous 9th-century illuminated manuscript. It is an amazing and complicated work of art, a presentation copy of the four Gospels, and through its images, a work of theology. Finally, it is a gateway to the world of the Irish monks who were instrumental in bringing Christianity to the British Isles. It is a manuscript that asks as many questions as it answers. Its detailed images contain many mysteries for modern viewers.

Vienna: Crossroads of Culture

Vienna has been at the forefront of the arts and sciences for the past six centuries. At the center of central Europe, the Habsburg family amassed an amazing collection of art and artifacts often gained by the family's marriages into the royal families in Europe. Haydn, Mozart, Beethoven and Strauss made Vienna their home and changed the history of music. At the beginning of the 20th century, Otto Wagner, Gustav Klimt, and Sigmund Freud, brought life to a new modern era. Join NCCC & NU Art History professor **Nancy Knechtel** for a tour of this inspiring city.
